PREP SECTION

CLASS III: SUMMER WORK PLAN 2022

Dear Parents,

Greetings from MGD!!

You have done an amazing job as a Parent during the Pandemic.

Summer Break is the time to relax and rejuvenate. While the entire world is standing together in recovering from the pandemic, we will have to make sure that our little girlies are least affected from panic and appreciate their efforts of getting up daily and carrying on despite all that happened around.

Here are some interesting ways in which you can engage yourself and your kids during this SUMMER BREAK.

We are sharing with you a few activities that will help you in optimizing this time and nurture their creativity.

So here goes:

Dancing is not only Fun, but is also Good for Fitness too.

"True enjoyment comes from activity of the mind and exercise of the body; the two are ever united."

Dancing has a way of taking your blues away. It doesn't matter if it's the Electric Slide, the Macarena or your own crazy moves. Who hasn't gotten lost in an upbeat song as we jump around? But not only does dance feel good to the soul, dancing also has some major health perks.

Check out these links and enjoy!!! Have a Dance Party!

Here are some interesting ways in which you can engage yourself and your kids during this SUMMER BREAK.

We are going to share with you a few activities that will help you in optimizing this time and nurture their creativity.

- **Encourage them to lend a helping hand** in household chores like preparing meals, setting the table, cleaning up after meals, tidying up the house etc.

- **Play games like 'I Spy' and 'Dumb Charades'**. Ask questions related to things hidden in and around the room like 'I spy with my little eye something that has three blades on it.'

- **Nurture the gift of imagination:** Give old and reusable stuff like cartons, envelopes, cards, glue, newspaper and ask the child to create something. Once done, encourage them to speak about their creation.

- **Encourage your children to maintain a daily diary** as it helps them to speak their minds. Tell the children that every day before bedtime, they can either draw or write about at least one thing that happened that day, an incident that they would like to remember.

- **Have an indoor family picnic/camping party.** Use pillows, cushions, bedsheets to give it an outdoor picnic feel. Serve food items that the children relish, play board games like ludo, monopoly, carrom etc. Don't miss the unending happiness on the children's faces.

- **Positive Reinforcement:** I can't do that yet. But if I keep on trying, I will. The child can maintain a 'Now I Can' notebook to jot down things that he learnt to do in this time period.

- **Have a family meeting** and decide which times in your house will be "official gadget free time". Developing a hobby is a great way of weaning children off screens and gadgets.

INSTRUCTIONS:

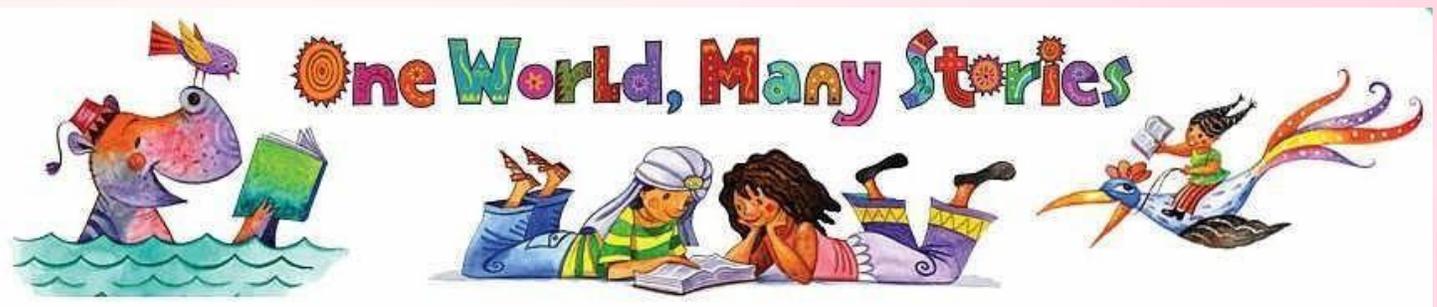

- Take a print out of the worksheet on an A4 sheet and do the work. Paste it in your scrap book for submission
- Assist in managing your child's work. Avoid keeping everything for the last moment.
- You are requested to encourage your child to do the work independently.
- You can support the child if he/she needs help.
- Creativity and originality of the work will be appreciated.
- Read the instructions given for each topic carefully.

ENGLISH

READING IS FUN

“Books are the quietest and the most constant friends; they are the most accessible and wisest of counsellors and the most patient of teachers.”

Reading a good book is the most enjoyable and enriching experience one can have.

TASK 1: READ A BOOK

Choose at least a book, read it during these vacations.

TASK 2: BOOK REVIEW

Complete the Book Review worksheet after reading it.

LINK: [WORKSHEET: NARRATIVE ORGANIZER](#)

Suggested Authors: a. Roald Dahl b. Enid Blyton c. Ruskin Bond d. Judy

Blume e. E.B.White You may also try the following PDF Reads:

LINKS: [Five On A Treasure Island.pdf](#), [Five Get Into Trouble.pdf](#), [Five Have A Wonderful Time.pdf](#), [Five Have A Puzzling Time.pdf](#), [Five Have Plenty Of Fun.pdf](#), [Charlie and the Chocolate Factory.pdf](#), [Dahl roald - fantastic mr. fox.pdf](#), [Five Fall Into Adventure.pdf](#)

Note: Take a print out of the worksheet on an A4 sheet and do the work.

Paste it in your Scrap Book for submission.

EVS

EXPERIMENT – SINK AND FLOAT

“We keep moving forward opening new doors & doing new things because we’re curious and curiosity keeps leading us down a new path.”

This super easy solution experiment is the perfect way to teach kids about the density* of solutions under varied conditions. In liquids, the density determines whether or not something will sink or float. It would be amazing to know how different solutions have different densities.*

Task 1: Worksheet

LINK: [WORKSHEET- I AM A SCIENTIST](#)

Density is one of the basic physical properties of matter. Dense objects are generally heavy and less dense objects can even be lighter than air. If an object is heavy and compact, it has a high density.

Note: Take a print out of the worksheet on an A4 sheet and do the work. Paste it in your Scrap Book for submission.

MATHS

ACTIVITIES: PUZZLES AND QUIZZES

Mathematics may not teach us how to add love or minus hate. But it gives us every reason to hope that every problem has a solution

TASK 1: PRACTISE

Math is part of children's everyday lives. Each math moment is like a charging station that helps children become ready for more math learning. When children focus on problem solving rather than on getting the right answer, they learn more. So let's gear up and reinforce the concepts learnt by completing the given worksheet.

TASK 2: MATH QUIZ

Math quizzes help us to increase our knowledge. It is a great way of improving concentration and also helps us to boost our mental abilities. Put on your thinking cap and solve the given quiz.

Note: Take a print out of the worksheet on an A4 sheet and do the work.

Paste it in your Scrap Book for submission.

HINDI

क्रियाकलाप: मेरी तरोताजा रेसिपी

“शिक्षा और मेहनत एक ऐसी सुनहरी चाबी होती है, जो बंद भाग्य के दरवाजे बहुत आसानी से खोल देती है।”

गर्मियों के दिनों में अपने आप को तरोताजा रखने के लिए समय - समय पर पानी पीना ज़रूरी है। गर्मी में अधिक पसीना बहने के कारण कई ज़रूरी खनिज लवण(मिनरल) हमारे शरीर से निकल जाते हैं। पानी से हम इन मिनरल्स की पूर्ति कर सकते हैं। लेमोनेड (शिकंजवी) , आमपन्ना , सत्तू आदि पीने में भी अच्छे लगते हैं और शरीर में जल की कमी को भी पूरा करते हैं। तो आइए इन गर्मियों की छुट्टियों में अपनी माताजी के साथ अपना अपना कोई मनपसंद पेय पदार्थ बनाइए और सपरिवार उस पेय पदार्थ का आनंद लीजिए प्यारे बच्चों ! आपका अपनी मनपसंद रेसिपी बनाने का अनुभव कैसा रहा ? दी गई वर्कशीट में लिखिए।
