Dear Parents,

Environment across the Globe is undergoing a transformation due to challenges created by the Pandemic -CORONA Virus. We have been deliberating in house on every issue perceived to ensure that our Students don't lack behind in their learning process. The positive response from students with ever supporting parents has been praiseworthy during our initial phase of Digital Classes. This successful beginning of new epoch - Digital Learning wouldn't have been possible without the commitment of our Teachers who have really toiled beyond the limits of their respective responsibilities of being home makers during these Lockdowns.

I am sure you will appreciate that new challenges brings in new responsibilities and liabilities for our school. These are in terms of technical up gradation in the world of Digital learning, ensuring classes in shifts with adequate social distancing which is going to be mandatory norm in the school and special care in terms of health and hygiene( **sanitisation** ) .All these up gradation will entail additional expenditure.

Most of our expenditure for the current financial year was fixed and planned as per the school budget keeping in view existing fee structure. In order to cope up with the new world order where everything new will have to be borne by the school, it is important that the regular flow of fee must come from parents. **We are already half way in the first Quarter (Apr –Jun) and still way behind in our collection of fee. It is our responsibility to pay our Educators and staff in time to keep them in high spirits to work.**

**I would request you all to pay school fee as early as possible .We have all the options now open to pay the fee i.e. Net banking / NEFT / Demand Draft /Cash through bank in our school Bank of Baroda branch or any branch of BOB in Jaipur.**

These are testing times and we need to stand together to overcome challenges with grit and determination. We assure you that the school will leave no stone unturned to give- OUR **UTMOST FOR THE HIGHEST** in educating your daughters.

Stay healthy and safe

Principal
